FOR IMMEDIATE RELEASE  
August 17, 2015

## EXPANDED CAPABILITIES

### Maximum Coil Weight Improvement

August 17, 2015– International Metals Processing is pleased to announce its expanded maximum coil weight range. Effective immediately, International Metals Processing is able to receive and handle all coils weighing up to 50,000 pounds for warehousing, and able to cut-to-length process coils up to 50,000 pounds within the following gauge/thickness ranges:

Aluminum: 0.080" – 0.250" up to 64" in width

Stainless and Carbon Steels: 0.075" – 0.1875" up to 64" in width

Red Metals: 0.075" – 0.250" up to 60" in width

As your partner in processing, IMP continues to aggressively assess opportunities to improve and innovate. We look forward to further exciting announcements to benefit our customers in the future.
